

ROCK PAPER SCISSORS

Completion of Internship Requirements

On behalf of Rock Paper Scissors, I, Eve Kornblum confirm that Tyrell Womack has completed all the requirements for interning at our company. He has learned the importance of editing and how our company functions between two offices. Also Mr. Womack has learned the importance of being a production assistant and working towards being an editor as many, at the office, have taken the same route. With natural skills, he managed to build and maintain a great relationship with an important Senior VP Senior Creative Director, by the name Randy Van Kleek at BBDO, an Advertising Agency also located here in New York. Mr. Womack has been motivated and driven each day stepping into the office and it was a pleasure having him and we wish the best for him.
